

LEWES BPW UPDATES – JANUARY 22, 2016

Electric Department

Weather permitting, the Electric department will remove the Snow Flakes and begin Tree Trimming prior to February 1, 2016.

The process for Tree Trimming will be to cut as many limbs possible on one day and return the next day to remove them. We appreciate your patience during this time and we ask you to be careful while walking near them.

As a reminder, the provisions of right-of-ways and easements typically grant the BPW the authority to trim trees without additional property-owner permission. We take additional steps to notify customers in advance when this occurs.

Savannah Road

DelDot is continuing their work on Savannah Road adjusting manholes and pouring concrete.

Savannah Road is a state owned road. DelDot is responsible for upkeep and maintenance of the road as well as snow removal during inclement weather.

Highland Acres

The installation of a 12" water line from Savannah Road on to Sussex Drive is complete. Work on Water and Sewer construction in Highland Acres has resumed and work in private property is commencing.

BPW's Water Department Update

Still in progress ... the storm water at the intersection of Anglers Road and Market Street as well as water being worked on from Market Street down Bay view to Savannah Road.

As we work on water works, we sometimes stir up rusty water. In spite of the appearance, it is disinfected and safe to drink and utilize. Please flush the line(s) for a few minutes for clearance. However, if it should not clear up within a reasonable time, please contact us to remedy the situation as soon as possible.
